### Course Delivery and Assessment

Course delivery is via face to face classes or flexible blended learning. Face to face classes are held periodically in a variety of areas throughout the year and blended learning is available at all times. All students are provided with access to learning and theory assessment resources online and will require a computer with internet access to complete their studies. Student computer access is available at our Learning Lounge in Hervey Bay and is provided in face to face classes. All students are required to attend (depending on electives) face to face practical assessment days to complete their course. These days are held periodically throughout the year.

Support Services are available for students including literacy and numeracy support and support for students with a disability. Students are encouraged to discuss their needs with their trainer. Reasonable adjustments are available for some students in some circumstances.
